

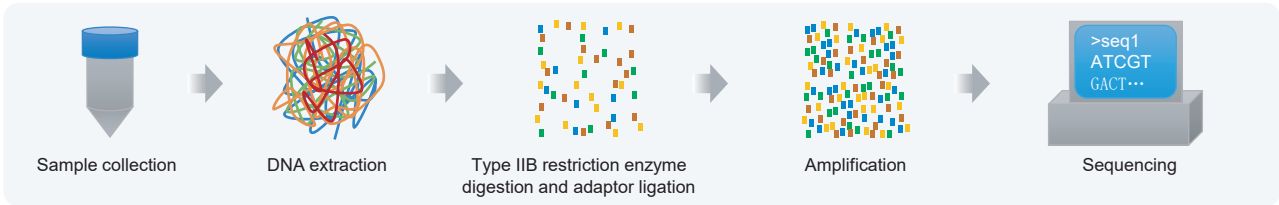

Figure 1

2bRAD sequencing for microbiome

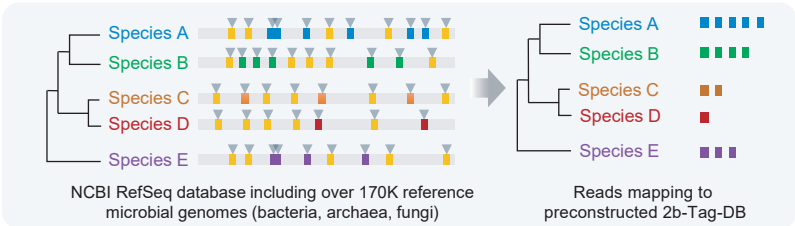

Sequencing

Bioinformatic pipeline

Legend for the bioinformatic pipeline:

- Species (grey bar)
- recognition sites (grey triangle)
- Non-specific 2bRAD fragments (yellow square)
- 2bRAD markers specific to Species A (blue square)
- 2bRAD markers specific to Species B (green square)
- 2bRAD markers specific to Species C (orange square)
- 2bRAD markers specific to Species D (red square)
- 2bRAD markers specific to Species E (purple square)

Taxonomic profiling
